

Repair & Parts Services

Extend the life of your IT equipment with Repair and Parts Services from World Data Products, Inc. (WDPI). Realize savings up to 80% vs. the price of replacing with new equipment, without sacrificing reliability and performance .

WDPI is your "one-stop-shop" for all technical platforms including: Cisco, IBM (iSeries, pSeries, xSeries), Sun, HP (9000, Itanium, Proliant), Dell, and many others. We provide reliable parts and repair services for all network and server components, including feature, option, workstation, printer, and personal computer repair.

All parts and repairs adhere to ISO-compliant quality control standards, are guaranteed for 90 days and complete a rigorous "Total Quality Repair Process" process. Extended guarantees are available on most products.

Total Quality Repair Process	
Physical Inspection	Equipment is unboxed, serialized, thoroughly inspected and approved for receiving into the Inventory Management System.
Diagnostics	Products are categorized and certified technicians carefully inspect each piece of equipment and replace defective or missing components.
Parts Replacement	Certified technicians carefully troubleshoot and install each part according to OEM's specifications.
Upgrades	Memory, hard drive, tape drive and CPU speed upgrades are performed.
Testing	Following assembly of functional components, the system is rigorously tested with sophisticated testing equipment.
Quality Inspection	WDPI's certified technicians complete a final inspection to ensure the equipment meets world-class standards.
Shipping	All equipment is carefully banded and packaged in compliance with the industry-leading standard for safe delivery. Systems are insured and shipped according to customer specification.
Warranty	WDPI provides an industry-leading warranty and all reconditioned products are eligible for manufacturer's maintenance.

When you need it fast, WDPI offers express repair solutions and parts replacements that are ready within 5 days and can be shipped overnight to anywhere in the world.

We offer **FREE ESTIMATES** and there are **NO BENCH FEES**. Unrepairable items are eligible for free disposal.

WDPI helped a large precision measurement software company continue to support EOL equipment for their customers by offering an extended warranty for unique repairs.

Grow your business and maximize your budget with proven IT solutions from WDPI
